

# AAMAIZ-32

**AAMAIZ-32**: is a formulation designed specifically for all types of corn, (field corn, sweet corn, and popcorn). **AAMAIZ-32** contains a natural biostimulant combination that is specific to corn. **AAMAIZ-32** is fortified with a proprietary carbon synergist to make the crop more photosynthetically efficient. When applied as directed at the 3-5 blade stage improves yield by addressing the following issues

1. Increased Lines Of Grains Per Ear.
2. Increased Number Of Grains Per Line.
3. Increased Weight Of Each Grain.

**AAMAIZ-32** can be used on Grain Sorghum at the 5-8 blade stage to accomplish the following beneficial results:

1. Increased Number of Gains Per Head.
2. Increased Tillering & Increased Heads Per Plant.

**TO REALIZE THE BENEFITS OF THIS PRODUCT IT MUST BE FOLIARLY APPLIED DURING THE STAGES THAT GRAIN NUMBERS ARE BEING DETERMINED.**
