

BERRY SETT

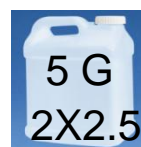

BERRY SETT is a proprietary formulation for foliar nutrients sequestered in low molecular weight organic acids. It is fortified with natural biostimulants, plant fermentations extracts, enzymes, and extracts of *Ascophyllum nodosum* and *Chondrus crispus* seaweeds.

BERRY SETT is designed for use on all types of berry crops to induce heavy blooming and berry set.

- Strawberries
- Cane Berries, (Blackberry, Raspberry, Dewberry)
- Bush Berries, (Gooseberry, Jostaberry, Honeyberry, Lingonberry, Blueberry)

BERRY SETT IS RECOMMENDED FOR MULTIPLE SEASON APPLICATIONS ON EVER BEARING STRAWBERRY TYPES
