BERRY SETT

**AUXILIARY NUTRITIONAL COMPOUND
FOR ALL BERRY CROPS**

**READ ENTIRE LABEL BEFORE USE.
SHAKE WELL BEFORE USE
AVOID EYE CONTACT
DO NOT INGEST**

DESCRIPTION

BERRY SETT is a foliar nutrient compound that is fortified with ENERGIZE-FE, a proprietary blend of natural fermentation products, enzymes, vitamins, and carbon synergists. It is used on all berry crops to maximize bloom set and fruiting. It should be used as a foliar cover spray.

COMPATIBILITY

BERRY SETT is compatible with a wide range of pesticides and fungicides. When tank mix compatibility is unknown, always check with standard quart jar method prior to tank mixing.

HOW TO APPLY

Apply with any equipment that delivers a fine even mist to the foliage of the crop.

GENERAL RECOMMENDATIONS:

- ❖ **STRAWBERRIES:** Apply 3-4 pints per acre just as berries are forming bloom buds. For every bearing varieties, apply immediately after every pick cycle.
- ❖ **BLACKBERRIES AND RASPBERRIES:** Make first application just before floracanes are budding to bloom. Repeat 3-4 weeks.

NOTE: When backpack type sprayers are used, mix 1.5-2.0 fl. oz. per gallon of spray solution.
