No other warranty is made, either expressed or implied. Buyer and user, therefore, acknowledges and assumes all risk and liability resulting from handling, storage, and use of this material.

READ ENTIRE LABEL BEFORE USE. SHAKE WELL BEFORE USE.

DESCRIPTION

CONNECT is a unique formulation on Nitrogen, Phosphorous, and Potassium that contains a high level of Calcium. It is designed for foliar application to fruit, berries, and vegetables to produce more uniform, better tasting, and more durable produce. Use to supplement soil nutrient programs.

COMPATIBILITY

Product is generally tank mix friendly with a wide array of tank mix partners, but a standard quart jar test should always be conducted prior to tank mixing.

APPLICATION

Apply recommended rates in 20-100 GPA with equipment that delivers spray to all plant foliage.

RECOMMENDATIONS:

- **APPLES and DRUPES:** Apply 2 to 4 pints per acre immediately petal fall and repeat at frequent intervals throughout development periods.
- **BERRY CROPS:** Begin cover sprays early in season at 2 to 3 pints per acre and repeat at frequent intervals. A final application at 3 days prior to harvest is very beneficial.
- **VEGETABLE CROPS:** Begin application at 2 to 3 pints per acre in early season and repeat at 14 days intervals.
