Manufactured By: ProTea Botan US, INC.

1039 Autumn Oaks Circle

Collierville TN 38017

NET CONTENTS: 10.0 lbs (4.55 Kg)

DESCRIPTION:

COLONY-AG is a proprietary blend of select soil bacteria designed for use on all agricultural cropland to maintain a high level of beneficial soil microorganisms that are often compromised due to modern agricultural practices.

COMPATIBILITY:

COLONY-AG can be tank mixed with virtually all fertilizer combination, humic acids, and soil penetrants. DO NOT MIX WITH SOLUTIONS CONTAINING HIGH LEVELS OF COPPER.

APPLICATION:

Slurry the soluble powder well before addition to the application tank. Agitate thoroughly. Apply with any equipment that delivers material to target area.

GENERAL RECOMMENDATIONS:

- ❖ NARROW BAND OR INJECTION: Apply 0.25-0.35 pounds per acre.
- ❖ BROADCAST: Apply 1.0-1.25 pounds per acre.

Apply when soil temperatures are above 50°F. Best results are obtained when soil is moist. Surface applications should be watered or tilled into soil.
