NET CONTENTS: 2.5 Gal/9.45 liters
20.1 lbs /9.14 Kg

DESCRIPTION

DEFOLADE is a proprietary formulation of superior organosilicone surfactants combined with leaf penetrating synergists that deliver the companion defoliant product into the plant where it is to work. Naturally fortified with phytochemicals the product is designed to facilitate defoliant activity regardless of field environmental conditions.

COMPATIBILITY

DEFOLADE is generally tank mix compatible with most defoliation materials including dessicants, but should not be used with chlorates.

MIXING and APPLICATION

After compatibility check add the recommendation amount of **DEFOLADE** to the spray tank first under agitation, then add defoliant material.

RATES AND DIRECTIONS

DEFOLADE should be applied at the rate of 5-6 fl. oz. per acre. If spray volume in excess of 15 GPA are utilized the amount of **DEFOLADE** should be increased according.
