Manufactured By: ProTea Botan US, INC., 1039 Autumn Oaks Circle, Collierville, TN 38017

NET CONTENTS: 2.5 USG / 9.45 liters
21.04 lbs / 9.56 Kg

DESCRIPTION:

DRIP LINE is a highly concentrated surfactant soil penetrant, line cleaner that is designed to maximize water flow through drip irrigation lines and emitter tape irrigation systems. When used as directed **DRIP LINE** helps to reduce buildup in lines due to water and soil impurities.

DIRECTION FOR USE:

Combine **DRIP LINE** with water source in the earliest stage of water usage through the system. Introduce to system in a manner that the initial flow through of water will contain the maximum amount of **DRIP LINE**.

RATE OF USE: At the beginning of the irrigation season, use **DRIP LINE** at the rate of 1.5-2.0 pints per acre. Ideally, one additional flush using 1.0 pint per acre about mid season will be used.
