# ENDOW

## SUPERIOR SPRAY ADJUVANT AND ACIDIFIER

**READ ENTIRE LABEL BEFORE USE.**

**SHAKE WELL BEFORE USE.**

**KEEP CONTAINER CLOSED WHEN NOT IN USE.**

**DISPOSE OF CONTAINER IN ACCORDANCE WITH LOCAL REGULATIONS**

**DESCRIPTION**

ENDOW is a proprietary spray adjuvant and spray acidifier designed for use with most pesticides and nutrient mixtures. It can be effectively used as a spray acidifier where high (pH) water can cause spray tank fall out of pesticides.

ENDOW also contains a bioactive carbon synergist that rapidly penetrates leaf surfaces for increased activity.

**COMPATIBILITY:**

Generally ENDOW is tank compatible with most pesticides and nutrient solutions, but since local conditions cannot be predicted a standard quart jar mix test is always recommended prior to addition to the spray tank.

**APPLICATION:**

Always use the pesticide label recommendation as your authoritative source of information. It is a violation of Federal Law to use any pesticide contrary to its label recommendations.

**GENERAL USE RECOMMENDATIONS:**

- ❖ For general Surfactant use: 1 – 4 pints per 100 gal of Spray Solution.
- ❖ For use as a Spray Penetrant: 1 – 4 pints per 100 gal. of Spray Solution.
- ❖ Spray Tank Acidification: 8 – 16 fl. oz. per 100 gal. of Spray Solution depending on (pH) lend desired.
- ❖ Spray Drift Control Aid: 1 – 2 quarts per 100 gal. of Spray Solution.
