

RADIX PLUS

Special Root Crop Formula

RADIX PLUS is a proprietary formulation of major and micronutrients fortified with the carbon synergist (**SYNERGIZE C-3**), and the natural biostimulant compound (**ENERGIZE FE**). It is designed for use on root crops such as:

- Sweet Potatoes, Camote
- White Potatoes
- Carrots
- Sugar Beets, Etc

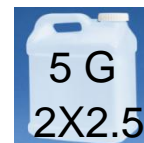

When applied as directed the benefits to the producer are as follows:

- Greater Yield Per Acre
- Higher Percentage of Number one Grade Tubers
- Improved Storage & Shipping Quality
- Higher Sugar Brix

TO REALIZE MAXIMUM BENEFIT THE PRODUCT MUST BE APPLIED AT THE CROP STAGES INDICATED ON THE LABEL.
