Thiosulfate, Boric Acid, EDTA Copper, HEDTA Iron, EDTA Manganese and Sodium Molybdate, EDTA Zinc

#### CAUTION:

#### KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. In case of contact with eyes, flush immediately with copious amounts of water for 15 minutes. If irritation persists, consult a physician. Avoid contamination of skin and clothing. Wash with soap and water.

# SOYASTIM-27 AUXILIARY NUTRIENT COMPOUND FOR SOYBEANS AND LEGUMES

#### **DESCRIPTION**

**SOYASTIM-27** is a proprietary, patent pending formulation of major and micronutrients designed for use on soybeans and other legume crops. It is fortified

with low molecular weight organic acids and natural plant extracts.

## **COMPATIBILITY**

SOYASTIM -27 is tank mix compatible with most nutrient compounds and a wide array of pesticides, however since local water conditions cannot be

anticipated a quart jar test prior to tank mixing.

#### APPLICATION

Apply as a fine foliar mist to canopy of the crop. Do not overspray to runoff. Apply 5-6 hours prior to rain or sprinkler type irrigation. Do not make late application on drought stressed beans. Best results will be realized in fields with adequate moisture and soil fertility.

#### RATES AND DIRECTIONS

- Soybeans and Edible Beans: Apply 1.5 2.5 pints per acre at third to fifth trifoliate for beans planted in rows. An additional application of 1.5 to 2.0 pints per acre immediately per bloom is beneficial.
- Broadcast beans: Apply 3.5 4.0 pints per acre at third to fifth trifoliate

WARRANTY AND CONDITION OF SALE: Manufacturer warrants that this material conforms to the chemical description hereon and is reasonably fit for use as directed. No other warranty is made, either expressed or implied. Buyer and user, therefore, acknowledges and assumes all risk and liability resulting from handling, storage, and use of this material.
