DESCRIPTION

TRANSPLANT STARTER is a nutrient solution sequestered in organic acids and fortified with natural fermentation extracts and vitamins designed for use when transplanting all crops and plants. When used as directed **TRANSPLANT STARTER** stimulates root growth and rapid plant establishment.

HOW TO USE THIS PRODUCT

Dilute 1.25-2.0 fluid ounces per gallon of transplant water and apply directly to roots in transplant hole when the transplant goes down. **DO NOT APPLY TO THE FOLIAGE OF THE TRANSPLANT.**

PLANTS AND CROPS

Apply dilute form to the following:

- Flower transplants- 0.25 - 1.0 pt. per transplant
- Tomatoes and peppers- 0.25 - 1.0 pt. per transplant
- Cucumber and melon transplants
- Vegetable transplants
- Shrubs and ornamentals- Saturate root mass with dilute solution.
