

Pastures & Hay Crops

- **Pastures:**
 - Sothern, warm season, fast growing grasses, apply **HISUL or Hay Maker**. Repeat as conditions indicate.
 - Rye, Fescue, Timothy, Etc., apply Forage Boost & Repeat as conditions dictate.
- **Hay Crops:**
 - Bermuda & Bermuda hybrids apply **Hay Maker** in early spring after dormancy break and repeat after each cut.
 - Other grasses (including nature) apply Crop Power-47 in spring and after each cut.

Note: In most cases it is desirable to dissolve 5-6 lbs of Urea per acre as a tank mix.
