Manufactured By: ProTea Botan US, INC.

1039 Autumn Oaks Circle  
Collierville TN 38017

**NET CONTENTS:** 2.5 USG / 9.45 liters  
29.38 lbs / 13.35 Kg

### **DESCRIPTION**

**GREEN IRON** is a concentrated formulation of soluble iron, organic acids and nitrogen. It is designed for use on turf, ornamentals, and nursery stock.

### **COMPATIBILITY:**

Never tank mix with phosphates and calcium. Always pre-check with standard quart jar method prior to tank addition.

### **HOW TO APPLY:**

Apply with any equipment that delivers a fine even mist to foliage. Apply with 15-40 gallons of water per acre. Allow 4-5 hours after application before watering. **GREEN IRON** can also be injected into irrigation lines.

### **RATE OF APPLICATION:**

Apply at the rate of 2-4 fl. oz. per 1,000 square feet when color decline is first observed. Repeat at 1-2 fl. oz. per 1,000 square feet every 2-3 weeks as indicated by plant color. If used in irrigation systems, inject at 75-150 PPM.

### **FOR FLORIDA:**

We recommend that you follow the Golf Course BMP's at: <http://www.flaes.org/pdf/Golf%20Course%20BMP's.pdf>
