BOLL KING

AUXILIARY NUTRIENT COMPOUND FOR COTTON

READ ENTIRE LABEL BEFORE USE. SHAKE WELL BEFORE USE.

DESCRIPTION

BOLL KING is a proprietary patent pending formulation of major, secondary, and micronutrients sequestered in low molecular weight organic acids, and mannose sugars, and proprietary plant extracts. It is for foliar use on cotton at the reproductive stages for improved blooming and fruiting.

COMPATIBILITY

Product is tank mix compatible with most nutrient solutions and insecticides. Avoid extremes in tank pH when mixing. Always check compatibility with standard quart jar method prior to tank mixing.

APPLICATION

Apply as a light foliar mist to the foliage of 5-20 GPA spray solution. Do not over apply to runoff. Allow 5 hours before sprinkle irrigation.

RATES OF APPLICATION:

General rate of application is $1.5-2.5\,\mathrm{pints}$ per acre depending on crop size and condition.

- <u>EARLY SEASON</u>: Apply 1.5 pints per acre immediately prior to pin head square formation.
- <u>CROP SET</u>: Apply 2 2.5 pints per acre as cotton begins to bloom prolifically.
- STRESS: Do not apply to cotton under drought stress. Application
 can be effective mitigator of temperature stress if soil moisture is
 adequate.
